

Skiing

Snow Flurries (6-8yrs)—In this class there are 5 levels. The beginner group will start in the beginner area (front of lodge) so parents will be able to watch their children's progress. We do ask that unless asked by the instructor parents remain either on the deck or inside so that the Instructor can better hold their students attention. If they need help they will ask. Please read through the levels below to help determine which level best describes your child. The colors will remain the same so when you complete a level you can put the next level as your ability level in future 4 week lessons.

Level 1 White Never ever beginner and/or cannot come to a stop on their own. They will be in the beginner area learning the basics of balancing and gliding on the snow

Level 2 Red Can stop and glide in a wedge (pizza) and are working on turning and getting up on their own. They take their first ride on the chair lift after mastering the beginner area

Level 3 Green Can turn left, right and make a complete stop. They can ride the chair lift and ski on green trails (slow poke and lazy lane)

Level 4 Blue Explores harder green trails and easier blue runs. They learn to make advanced turns, making a wedge turn (pizza) and skiing parallel (fries) across the hill

Level 5 Black Can make advanced turns, ski all blue trails and are beginning to explore groomed black trails (cloud 9). Can ski parallel on green and blue trails and are preparing for pole use.

Blizzards (9-12yrs)—In this class there are 5 levels. While the beginner group still starts in the beginner area (front of lodge) they tend to move quickly to the chair lift and to the green trails. Please read through the levels below to determine which level best describes your child. The colors will remain the same so when you complete a level you can put the next level as their ability level in future 4 week lessons.

Snowboarding

There are 5 levels in each age group. The levels are the same in each group but the speed that the levels are mastered varies greatly. The student may progress one or two levels or be recommended to stay in a level for more than one session. The first three levels of snowboarding can be very slow to master, and each student is different. Don't rush! Learn it and practice, practice, practice! Please read through the following levels to determine which best describes you or your child.
